Portfolio

EDUCATION

S.G. Balekundri Institute of Technology, Belagavi

Bachelor of Engineering (B.E) — Artificial Intelligence & Data Science

2022 – 2026

TECHNICAL SKILLS

Programming: Java, Python
Frontend: HTML, CSS, JavaScript, React
Backend: JDBC, JEE, Spring, Hibernate
Databases: MySQL, MongoDB, Database Design
Generative AI: ChatGPT, Copilot, Claude, Replit, NotebookLM, Google Antigravity
Visualization: Power BI, Tableau
Core Concepts: Data Structures & Algorithms, Computer Networks, DBMS, SQL, OOPS, OS

ACADEMIC PROJECTS

Glow Bites Food Delivery Web Application

- Developed a full-stack food delivery web application using Java, Servlets, JSP, JDBC, MySQL, HTML, CSS, and JavaScript following the MVC architecture.
- Implemented user authentication, restaurant browsing, menu management, shopping cart, order placement, profile management, and responsive UI.

DMart Shop Delivery Web Application

- Built an online shopping platform with secure authentication, product browsing, shopping cart, and order management.
- Developed using Java Servlets, JSP, JDBC, MySQL, HTML, CSS, and JavaScript following the MVC architecture.

Gym Management System

- Database-driven system to manage memberships, subscriptions, and payments.
- Streamlined gym operations through efficient data handling and user management.

2048 Game

- Python implementation focusing on algorithm optimization and user interaction.
- Implemented efficient game logic and tile merging algorithms to enhance problem-solving skills.

Classification Knee Osteoarthritis

- Machine learning model for classifying knee osteoarthritis using medical datasets.
- Assisted in early detection and severity analysis using predictive techniques.

EXPERIENCE

Software Development Intern

Jan 2026 – Jul 2026

Tap Academy, Bangalore

<https://tinyurl.com/TAPCertificate1>

- Full stack development, database management, and software engineering practices.
- Developed web applications and solved coding problems to improve programming skills.
- Gained hands-on experience with real-world development tools and collaborative workflows.

ACHIEVEMENTS

International Level Bootcamp on DSA for DeepTech 2026

<https://tinyurl.com/DSA-Java1>

Data Engineering Internship – Cognifyz Technologies

<https://tinyurl.com/DataEnggCognifyz>

Python for Data Science – NPTEL

<https://tinyurl.com/PythonNPTEL01>

TATA: GenAI Powered Data Analytics Job Simulation

<https://tinyurl.com/TATAForageGenAI>

Power BI Workshop – IFutureTech Pvt. Ltd.

<https://tinyurl.com/PowerBIWorkshop1>
